

Office Memorandum • UNITED STATES GOVERNMENT

25X1A

TO : [REDACTED]

DATE: 15 Jan 48

FROM : RPS

SUBJECT:

25X1A
25X1A

1. [REDACTED] charts x/x echo will become more pronounced [REDACTED] show
on 18 mc [REDACTED] freqs during February.

2. We have available 11095 and 12022.5 for [REDACTED] which
chart shows as "good" 1800-0800 GMT during February. We have set
aside 11095 for possible use on [REDACTED] but may possibly be able to [REDACTED]
utilize 12022.5 since, thus far, it has never been tainted on SA
circuits.

25X1A

3. [REDACTED] is now conducting interference monitoring tests
on the usable hours on both [REDACTED] and South American circuits.

25X1A

4. [REDACTED] being advised.

Approved For Release 2002/06/18 : CIA-RDP84-00499R000800040006-9

14 Jan

25X1A

25X1A [] - Monitor 14930.0, 18048.0 and 18670.0 KCS for [] working [] at 1200Z, 1330Z, and 1600Z.

25X1A

25X1A 5 Jan 1200 - [] heard S-8 on 18048 and 14930 calling []
[] heard S-8 on 18670 calling []

25X1A

1330 - Nothing heard either station, freqs clear, Noise S-3

1600 - " " " " " " " " S-2

6 Jan - Circuit stopped for this date as per original request.
Re-activation cable received late this date and monitoring begins again tomorrow.

25X1A

25X1A 7 Jan 1200 - [] heard S-7 on 14930 calling [] Nothing heard on 18048 though freq was clear. [] not heard, though freq was clear.

25X1A

1330 - Nothing heard of either station, all freqs clear
Noise S-3.

25X1A

1600 - [] not heard on either freq, [] heard S-9 on 18670.0 KCS.

25X1A

25X1A 8 Jan 1200 - [] heard S-9 on 14930 calling [] heard S-9 on 18048 calling [] heard S-9 plus calling [] on 18670. No QRM noise S-2 to S-3.

25X1A

1330 - [] not heard on either freq possibly due QRM.
heard S-9 calling [] Noise S-1 to S-3.

25X1A

1600 - Nothing heard of either station on any freq. 14930 has S-6 QRM others are clear, Noise S-2 to S-3

25X1A

25X1A 9 Jan 1200 - [] heard S-8 on 18048 nothing heard on 14930
heard S-9 but keying is very bad and is hard to read

25X1A

1330 - [] heard S-9 calling [] heard S-9 on 18048 but is not heard on 14930.0 Noise S-3.

25X1A

1600 - Nothing heard either station on any freq. No QRM
Noise S-1 to S-3.

25X1A

25X1A

25X1A 10 Jan 1200 - [] heard S-5 sending traffic to [] on 14930. KCS.
heard S-9 calling [] on 18670. Nothing heard on 18048 until 1247 when [] was heard S-7 calling []

25X1A

1330 - Nothing heard of either station on any freq.

25X1A

1600 - " " " " " " " " freqs
fairly clear, Noise level S-2 to S-3.

25X1A

25X1A

25X1A 11 Jan 1200 - [] heard S-8 calling [] on 14930. [] 25X1A
25X1A heard S-8 calling [] on 18048 [] heard S-9 working
[] on 18670.0. 25X1A

1330 - Nothing heard of either station on any of the frequencies which are all clear, Noise S-3.

1600 - Nothing heard of either station, frequencies clear
Noise S-2.
